

You say integrate. We say adapt.

We make dental technology work in any environment.

ADAPT. EVOLVE. INTEGRATE.

**BencoNET**<sup>®</sup>

## What we do.

Every dental office is different. With BencoNET, the level of technology you choose is dictated entirely by you. BencoNET can get you started by assessing your computers and server to give you the most efficient operations of your current dental digital equipment. BencoNET can customize the configuration of the latest digital equipment and technologies to create the total dental technology solution to best suit your practice now and for the future. We make it easy, helping you select just what you need to get the results you want.

## The BencoNET® advantage.

We design dental technology tailored to fit your specific needs. From determining your individual goals with our pre-project interview, to our final quality checks, every aspect of your project will be managed by our trained BencoNET professionals. The result is a beautifully balanced workspace that puts information at your fingertips.

ADAPT. EVOLVE. INTEGRATE.

## Build a foundation.

- > BENCONET GIGABIT WIRING  
BACKBONE SERVERS
- > CLINICAL, BUSINESS AND  
FRONT DESK WORKSTATIONS
- > PRACTICE MANAGEMENT  
ADVICE/SET UP

1 select

Our approach to digital integration ensures total flexibility—now and in the future. Only BencoNET can give you the functionality you want, without any unnecessary complication.

Want to automate your front desk operations? We can do that. Want to add or upgrade to digital X-rays? We can do that too. If you go fully digital in the future, you'll have a solid BencoNET foundation to build on. It's simple, 100% flexible and completely cost effective. BencoNET can combine all your equipment into one, easy-to-use system. Components can even be made compatible with software from other distributors. With BencoNET, it just works.

## Add new technologies.

- > CLINICAL WORKSTATIONS
- > DEDICATED & 3-D IMAGING SERVERS
- > DIGITAL SENSORS
- > DIGITAL PANS AND DIGITAL CEPHS
- > 3-D AND CONE BEAM IMAGING EQUIPMENT
- > DIGITAL IMPRESSION EQUIPMENT

With BencoNET, you can add digital X-ray, intraoral cameras, a patient education system or virtually any technology without altering your existing setup. If you've been waiting to enhance your practice with the latest advancements, the BencoNET team will propose a solution that fits your criteria for functionality, as well as user-friendliness.

BencoNET connects people with technology—technology that helps you do extraordinary things for your patients. With BencoNET you'll diagnose with greater precision, simulate the results of a comprehensive restoration and manage records with greater care and efficiency. BencoNET technology is here to complement, not complicate, your commitment to uncompromising patient care.

## Secure your investment.

When it comes to hardware and software support, no issue is too big or too small.

## BencoNET® Smart Backup<sup>SM</sup> protects your practice 24/7.

### Protect years of vital information

Protect your office from losing critical information built up over a practice's entire lifespan. BencoNET Smart Backup is a cost-effective way to avoid downtime and enjoy the peace of mind that comes with knowing your data is safe and accessible at all times.

### Safety first

Your practice's data is vital to its everyday operation and success. But how often do you currently back it up? Is it stored onsite? Is it safe in the event of emergency? With BencoNET Smart Backup, your data is stored to the safety and security standards of Fortune 500 companies.

### Classified information

The information stored in your practice is yours and yours alone. To protect your important practice data, BencoNET Smart Backup uses a 256-bit encryption, storing your data in multiple sites and ensuring your data is not stolen or replicated.

### A secure location

What if an entire geographical region is affected by disaster? With BencoNET Smart Backup your data will remain safe and intact. Data backed up with BencoNET Smart Backup is stored in two locations, separated by hundreds of miles, each with 24/7 monitoring, backup generators and redundant Internet connections.

### Get the facts

For more information about how vital backing up data can be to your practice, and how BencoNET Smart Backup can ensure data security, contact your Friendly Benco Rep or call 1-888-462-3626.

## Why BencoNET?

**BencoNET® supports all dental hardware and software, no matter where you bought it.**

What if your digital pan isn't communicating with your server? Or you're having a problem with your X-ray sensors? Try calling a non-dental tech support office. They'll have no clue what you're talking about. BencoNET speaks your language. Our certified professionals offer total technical support for all dental networks, software and hardware. The BencoNET team specializes in dental technology integration...from the simple to the most complex. No matter what you have, they'll pull it all together and make it work for you.

**BencoNET® builds computers for the dental environment.**

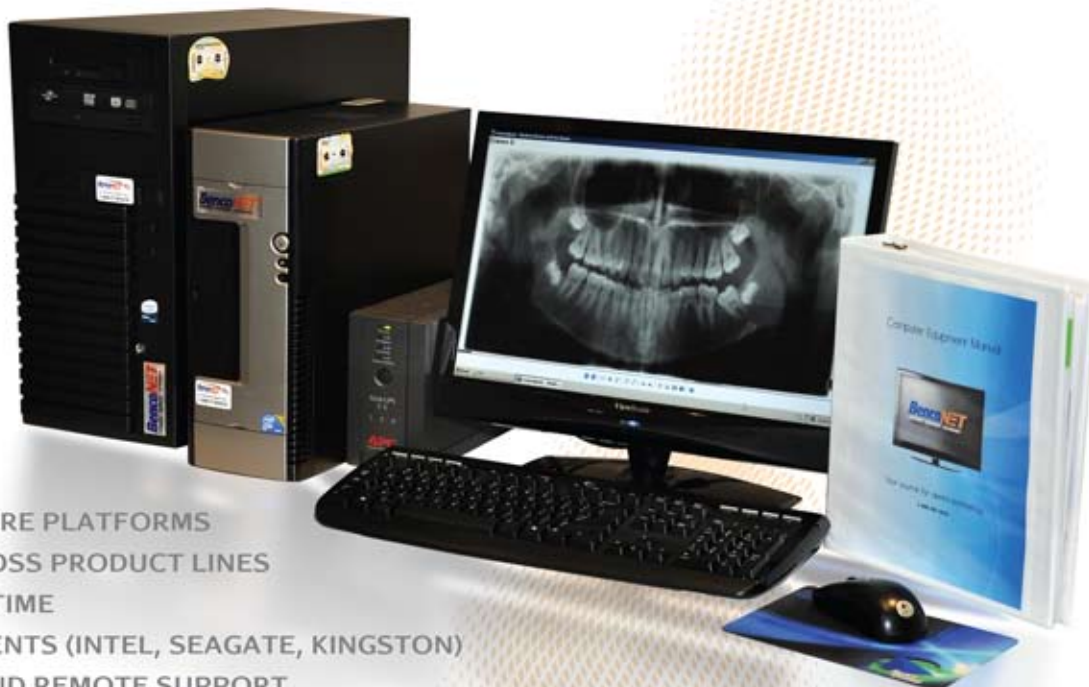

BencoNET computers are built to withstand the harsh elements of your busy practice. Networks are designed for dentistry and radiology. They're also built with dental imaging in mind so data transmits fast, and doesn't slow your system down. BencoNET uses top-quality components to ensure compatibility with dental imaging equipment, because downtime isn't an option.

# From hardware to software, to equipment and support, BencoNET® is here for you.

With a full range of services and more equipment brands than any other dental technology provider, BencoNET specializes in custom configurations for the dental environment. You'll also get...

- > CERTIFIED HARDWARE PLATFORMS
- > CONSISTENCY ACROSS PRODUCT LINES
- > DECREASED DOWNTIME
- > TOP-TIER COMPONENTS (INTEL, SEAGATE, KINGSTON)
- > ON-SITE, PHONE, AND REMOTE SUPPORT
- > DEDICATED TECH SUPPORT DEPARTMENT
- > UPGRADES FOR FUTURE EXPANSION
- > NO-HASSLE INSTALLATIONS
- > OVER 200 SERVICE TECHNICIANS
- > SINGLE SOURCE OF RESPONSIBILITY
- > CENTRALIZED TECH DISPATCHING FOR FAST SERVICE
- > FAST RESPONSE AND SHORTER ON-HOLD TIMES

Our commitment doesn't end when the installation is complete. Our goal is to ensure the equipment and systems you get from BencoNET are versatile, flexible, and most importantly, fit your specific needs. We're here when you need us... today, tomorrow and in the future.

BencoNET® is ready to serve all your dental technology needs. Call 1.800.462.3626 or visit [benco.com/benconet](http://benco.com/benconet) for details.
